

**IN AC Adapter**

Pri: AC 100V input side.

Sec: DC 6V output side.

**In DCHV converter.**

Sec1, Sec2 are paralleled as L1. Connected to output transistor Collector(Vt1-Q1c).

PriBack is connected to feedback(Vblock-Rblock) line as L2.

Pri is connected to HVDC rectifier diode (Vt2-D1) as L3.
